brie

The bread was embedded in what we bred. We bred in bed. Ate bread in bed. In bed bread bred. We bred a breed of bread. Read a reed of red bread. Bred red loaf leavened with leaves of red leaf lettuce. Bread let us read. Let us breed. Let us read bread. Reed bread. Breed bread. Braided reeds. Bread loaves braided between beads of butter. Red butter, but her braids were red. Bread. Red bread braiding reeds red. We bred loafs. Loaves. Love and red bred, love red and love read, red love, bread love, bread loaves, loafs, loves--loathing breeding, bread bled red. Bred. Red. Read. Let us. Bread.
